DETAILED ACTION

Allowable Subject Matter

1. Applicant is advised that the Notice of Allowance mailed 6/6/05 is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 9, 10-13, 15-16, 18-22, 35-39, 41-45, 48, 50 are rejected under 35 U.S.C. 103(a) as being unpatentable over Magett in view of Price.

Maggett discloses a multi-faceted reflection element (16) having a plurality of reflection surfaces (26) and an axis of rotation which passes along element (20);

Rotation means located substantially inside the multi-faceted element and comprising motor (22) supported along the rotation axis and one or more gear teeth (42) located on an interior portion (18) of the reflective element and in operable communication with the motor.

Element (12) may be deemed a holder and (20) a spindle where the element rotates with bearing (32) while the spindle and holder remain stationary.

Maggett does not teach the use of a directional light source.

Price teaches another multi-faceted reflective element having directional light sources (11, 12) for directing light upon the reflective surfaces. Directional light sources may include casing (30), 5a lens (31), a reflector (34), and an image mask (53). Price further teaches connecting the directional light sources and a reflective element housing (10a) in spaced apart relation by means of a support frame (13). Stand (15) supports the frame.

It would have been obvious to one skilled in the art at the time of the invention to provide a housing element, as taught by Maggett, within a complete structure, such as taught by Price, in order to allow for image projection upon the reflective surfaces and produce more substantive reflections.

It further would have been obvious to one skilled in the art to form the reflective element in other shapes as desired, such as a barrel, because Price column 2 Lines 59-62 teaches the formation of a reflective element in a desired artistic shape.

Allowable Subject Matter

3. Claims 6- 8, 17, 46-47, 49 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
